## PROFILE

As a Full Stack Software Developer with 4+ years of experience, I am proficient in modern technologies such as Python, Django, Node.js, React.js, and Flutter. I have a strong focus on user experience and interface design, and I utilize agile development methodologies to deliver high-quality results. In addition, I have experience in developing APIs as part of web and mobile applications, including integration with third-party services and platforms. I am a proactive problem-solver with a track record of success in web and mobile development, including API development.
